JA'FAR MAULANA IHSAN

Junior Web Developer | Frontend & Full-stack

ixanxnax299@gmail.com jafhdr.github.io github.com/jafhdr

PROFESSIONAL SUMMARY

Junior Web Developer focused on responsive interfaces and full-stack applications. I build with Astro, JavaScript, and Tailwind CSS, and develop application features with Next.js, React, NestJS, PostgreSQL, and Prisma. My CTI App contribution spans frontend, backend, database, and feature integration; UI/UX design was outside my role.

TECHNICAL SKILLS

Web: HTML5, CSS3, JavaScript, Astro, Tailwind CSS

Full-stack: Next.js, React, TypeScript, NestJS, REST APIs

Database: PostgreSQL, Prisma

Data & analytics: Excel, data analysis, predictive modeling, forecasting

Tools: Git, GitHub, Microsoft Office

IT support: Networking, software installation, device setup, maintenance, operational support

FEATURED PROJECT

CTI App - Threat Intelligence Platform **In development**

Full-stack development | Next.js, React, NestJS, PostgreSQL, Prisma

- Contributed to frontend, backend, database, and feature integration implementation across the application.
- Implemented workflows for threat intelligence indicators, case management, and attack surface asset inventory.
- UI/UX design was not part of my contribution.

WORK EXPERIENCE

Data Entry Operator | Hanjuan Engineering **Nov 2023 - Dec 2023**

- Entered, updated, and verified system data; maintained organized and complete records.
- Maintained data confidentiality, collaborated to resolve discrepancies, and backed up data.
- Prepared reports and conducted data analysis as needed; kept up with data-entry tools.

Sales Associate | OPPO Sales **Jun 2021 - Jul 2021**

- Sold HP products, presented products to clients, and developed sales strategies to achieve monthly targets.
- Built customer relationships, negotiated prices and agreements, tracked market trends, and reported sales results.

EDUCATION

Universitas Muhammadiyah Cirebon **Oct 2021 - Oct 2025**

Teknik Informatika (Informatics Engineering)

SMK Yadika **2015 - 2018**

Teknik Komputer Jaringan (Computer and Network Engineering)

CERTIFICATIONS & LANGUAGES

Certifications: Belajar Dasar AWS Cloud; BNSP (Junior Web Programming)

Languages: Indonesian, English
